

OUR COMMITMENT TO YOUR HEALTH AND SAFETY

Palais des Festivals et des Congrès de Cannes awarded GBAC STAR™ Facility accreditation, the international benchmark in health security

After obtaining the “Sanitary Security Label” and “Ecovid Label” issued by SOCOTEC, in February 2021, the Palais des Festivals et des Congrès de Cannes was awarded North America’s top health certification for public hospitality facilities: GBAC STAR™ Facility. Awarded by the Global Biorisk Advisory Council*, this certification attests the implementation of the strictest protocols in terms of cleaning, disinfection and prevention of infectious diseases within the establishment. Already issued to the largest convention centres in the United States, this certification has for the first time been awarded to a convention centre in France. The Palais once again proves its commitment to hosting international events with the utmost respect for health protocols.

Guided by the French Government and the World Health Organization (WHO) health measures, our actions are subject to change overtime in accordance with associated recommendations.

1. Mandatory face masks

Surgical masks will be mandatory for trade show participants, service providers and Reed Expositions France employees.

2. Hand sanitisers will be available during the event

Touch-free hand sanitiser stations will be located throughout the premises and in common areas (conference rooms, demonstration spaces, etc.)

3. Digitalised access passes

In order to avoid queues and frequent contact, we use print@home passes wherever possible, so remember to print your badge before the trade show.

4. Compliance with capacity limits and regulation of visitor traffic flows

We will ensure that maximum capacity limits are complied with in exhibition halls, conference spaces and food service areas...
Floor markings and a one-way system will help you follow social distancing measures.

5. Increased disinfection

Cleaning will be reinforced in all exhibition spaces and high-contact areas will be frequently disinfected.

6. New meeting spaces and conference rooms

Spaces will be reorganised to enable face-to-face meetings while following social distancing measures. These measures will also be in place for conference rooms.

7. On-site food services

Tables will be arranged to follow social distancing measures, with 1 m between each table and no more than 10 people per table. Health inspections will be increased and staff will be trained to follow health measures.

8. Special communication and safety reminders

Staff and participants will be reminded of health and protective measures before and throughout the event. Our goal is to open the doors to our trade shows responsibly, while protecting participants and our employees.

9. Management of individuals with COVID symptoms

A medical team will be present for the duration of the event. Suspected COVID-19 cases will be isolated and handled by suitable health professionals.
