Screenings for buyers

Discover content

Explore the Screening Library to discover programmes available at MIPCOM. Use the filters to quickly find the content that matches your interests.

Screenings for buyers

Watch a screening

Open a title to view the details and watch the available video.

As you screen the content, you can add your own private notes, favourite the content you want to follow up on and indicate to the content owner if your interested or not interested.

The screenshot displays the mipcom CANNES Matchmaking & Screening Platform interface. The top navigation bar includes links for Home, My meetings, and My event plan, along with a search bar and user profile icons. The main header features the mipcom CANNES logo and the tagline 'MATCHMAKING & SCREENING PLATFORM'.

The central content area is dedicated to the animated series 'Luna & The Little Comets'. It features a video player with a play button and a progress bar. Below the video player, there are buttons for 'Interested' and 'Not interested', and a section for 'Private notes' with a text input field and a '0/2000' character count.

To the right of the video player, there is a 'Details' section with the following information:

- Details:** 26 episodes, 11 mins
- Producer:** Comet Lane Studios
- Director:** Maya Ellison
- Author:** Priya Raman
- Main broadcaster:** Little Sprout Kids

Below the details, there is a 'Content genre' section with 'Kids > Anime' and 'Kids > Animation' tags. The 'Content format' section shows 'TV Series' and 'High Definition' tags. The 'Audience' section shows 'Kids' and 'Family' tags. The 'Localization' section shows 'Dubbed Audio' and 'Multilingual Package' tags. The 'Content rating' section shows 'G / U'.

At the bottom of the page, there is a 'Gallery' section with a thumbnail image of the series. Below the gallery, there is a section for 'Attitude Reel' with the text: 'Global film and television content, curated for every cabin. Attitude Reel licenses and distributes films, television series, documentaries, and family programming to airlines worldwide. Its multilingual, airline-ready catalogue includes edited versions, subtitles, dubbed audio, and delivery packages for major inflight entertainment systems.'
